

Children's Cushion Covers

20 inch square

used in the Odyssey House Child Care Centre

Make them up like a pillow case, with about 6 inches folded back inside. Make sense?

The Story

Some cushion covers were part of *Show & Tell* at Geelong P&Q Guild Quilt-In 2010.

“I am lucky enough to have a friend of a friend, supply me with Furnishing Fabric samples. And with the aid of my NEW overlocker, I created these colourful covers for the Odyssey House Children's Centre in the last week.”

The Background

AQA (the Australian Quilters Association) make quilts and other items as needed for the Odyssey House participants and their families, as the major part of our Gift Quilt Program.

The participants are presented with a quilt, as they reach the transitional period in their rehabilitation program.

As well AQA provide

- quilts for their children, especially those in the family units
- cot- sized quilts for the children's rest times

In the past, money raised in one of AQA's Raffles was used to fund the Fairy Garden outside the Children's Centre.
